

DRESSING FOR DINNER

Lighting & Drapery

'Creating the perfect ambiance for your special day'

Whatever venue you have chosen for your special day from Hotel function room, Marquee or Village Hall, drapery and lighting can play a key role in providing atmosphere for your event. The standard fluorescent or recessed lighting provided at most venues gives limited options, in some cases just on or off!

By using Wall washes, up-lighters, starlight curtains, lighting strings and starcloths we can enhance key features, or if needed, hide areas that detract from the overall effect you want to create.

Adding colour to co-ordinate with your scheme in the lighting personalises the space to you event with differing intensities and tones cleverly altering the ambiance created. Using coloured voiles, organza's and silks to dress ceilings and walls either as a stand alone feature or as an overlay to white drapery will create drama or give a romantic feel which completes the effect.

Here are just a few examples...
